Pomeranian Medical University
SCHEDULE for the 6th year Faculty of Medicine English Program 2010/2011

ANAESTHESIOLOGY and INTENSIVE CARE
Academic Year 2010/2011

The Anaesthesia and Intensive Care provides insight and training in the principles of anaesthesia and intra-post-operative care. During the rotation, students experience pre- and postoperative evaluation of patients, direct patient care responsibility, and care of the anaesthetized patient. Medical students also gain an understanding of clinical pharmacology and physiology of the peri-operative period, principles and practice of both regional and general anaesthetic techniques, intravenous access and airway management, and exposure within anaesthesia subspecialties including ambulatory surgery, post-operative pain service, cardiothoracic, vascular, general, oncology surgery.

The course of Anaesthesia and Intensive Care comprises of seminars and clinical training in the Operating Room and a multiple choice test.

Faculty: Dr n. med. Maciej Żukowski, dr n.med. Jowita Biernawska, Lek. Katarzyna Kotfis
Composition:

Meeting time: 8:15 a.m.
Meeting place: Oddział Anestezjologii i Intensywnej Terapii z Pododdziałem Ostrzych Zatruć PAM
Samodzielny Publiczny Szpital Kliniczny Nr 2 (Teaching Hospital No.2)
ul. Powstańców Wielkopolskich 72
70-111 Szczecin, Poland

Seminars and clinical training in the Operating Room:
1. All training activities are obligatory and the presence is registered.
2. The scope of knowledge required for each seminar and OR training is given on the bulletin board and on the website (www.pam.szczecin.pl). Students are expected to read the appropriate passages from textbooks.
3. Student’s comprehension of the required knowledge will be checked every day.
   In case of insufficient knowledge in order to obtain credit for the course a student has to make an appointment with a lecturer (or assistant) during the last two days of the course to demonstrate comprehension of the subject in question.
4. Absences: Only two are allowed during the rotation, including planned absences. All planned absences must be justified and notified before the end of the course. In case of a justified absence student has to learn the material discussed during the missed seminar.
   It is student’s responsibility to make an appointment with a lecturer or assistant for the comprehension of the required knowledge has to be checked before the end of the course.
5. At the end of the course student has to pass a multiple-choice test.
6. A failed test can be retaken twice: first attempt two weeks later and second attempt in June 2011.
