Faculty of Medicine and Dentistry
Pomeranian Medical University in Szczecin

To the Students of the Medical and Dentistry majors
1st, 2nd, 3rd, 4th, 5th, 6th year in the academic year 2020/2021

English Program
Asklepios Program

Dear Students,

Current epidemiological situation all over Europe allows us to start academic year on a regular basis in F2F formula, however with all the required restrictions.

We would like to implement the 3W rule:

- Watch your distance
- Wash your hands
- Wear a face cover

Protect Yourself from COVID-19.

As a future medical specialists you are required to show the best practice to be followed by others.

At PUM in order to meet the epidemiological requirements the premises are cleaned regularly. All common-use surfaces (e.g., door handles, table tops, chair armrests and support surfaces, toilet surfaces, water taps) are regularly cleaned using disinfectants.

However all these methods make no warranty and do not relieve the student from a sound mind, he/she still is exclusively responsible for own decisions and behavior.

There are few new implementations at the University curriculum:

1. Part of the classes, especially LECTURES and sometimes SEMINARS will be on-line.
2. Moodle Platform will be used for the lectures and seminars.
3. Already established way of testing students via Examination Center remains unchanged.
Same way as previously (with the help of the Group Leaders) we shall inform you about any new updates. If the epidemic situation will change, we shall inform you immediately.

The students are kindly required to check the web page frequently:
https://www.pum.edu.pl/english/deans-office/announcements

We count on your motivation, common sense, conventional wisdom, critical distance and openness. New environment creates new possibilities.

You are invited to continue your studies in 2020/2021 from September 28th, 2020.

Yours sincerely,

[Signature]
