**Detailed information**

|                                      |             |   |
|--------------------------------------|-------------|---|
| <b>Module objectives</b>             |             | To gain the knowledge of:<br>1. Current law regarding medical and dental practice, as well as correct rules of Medical Jurisdiction.<br>2. Rules of Medical Jurisdiction and its contribution in the health care costs<br>Rules of Jurisdiction documentation |
| Prerequisite /essential requirements | Knowledge   | Basic knowledge about the Code of Medical Ethics and about the law of public health insurance   |
|                                      | Skills      | Ability to define basic terms in the field of prevention, health and disease  |
|                                      | Competences | Habit of self-education, group working  |

**Description of the learning outcomes for the subject /module**

| No. of learning outcome | Student, who has passed the (subject) knows /is able to /can:  | SYMBOL (referring the standards) | Method of verification of learning outcomes* |
|-------------------------|--|----------------------------------|--|
| W01                     | organizational and legal aspects of Polish health care system  | K_G.W07                          | Test   |
| W02                     | rules of operation, management and informatization of public health institutions and entities            | K_G.W08                          | Test   |
| W03                     | rules of operation of basic medical and dental care  | K_G.W09                          | Test   |
| W04                     | rules of providing benefits in case of disease, maternity, accidents at work and occupational diseases   | K_G.W29                          | Test   |
| W05                     | rules of certification regarding temporary disability for work and pension purposes                      | K_G.W30                          | Test   |
| W06                     | rules of keeping, storing and making medical records available to public and protection of personal data | K_G.W32                          | Test   |
| U01                     | follow rules of law regarding dental practice  | K_G.U29                          | Test   |
| U02                     | follow norms covered by code of medical ethics   | K_G.U30                          | Test   |
| U03                     | explain norms included in code of medical ethics and international norms of medical ethics               | K_G. U31                         | Test   |
| U04                     | show respect to patient and family thereof and understanding of cultural and outlook differences         | K_G. U32                         | Test   |
| U05                     | present doctor's obligations towards patient due to applicable laws and regulations                      | K_G. U33                         | Test   |
| U06                     | establish principles of responsibility connected with medical practice                                   | K_G. U34                         | Test   |
| U07                     | keep medical records correctly   | K_G. U39                         | Test   |
| U08                     | issue medical certificate correctly  | K_G. U40                         | Test   |
| K01                     | show habit of self-education and lifelong education  | K_K01                            |  |
| K02                     | show respect to patient, social groups and cares for their goodwill and security                         | K_K05                            |  |
| K03                     | make opinions on different aspects of professional activities  | K_K10                            |  |
