

STUDENT'S PRACTICE RECORD CARD

major: **dentistry**

year of studies: **FOURTH**

Student

.....
(Name/s and Surname/s)

.....
d.o.b (dd/mm/yyyy)

is entitled to complete a medical practical training in accordance with the following program

After the 4th year of studies, student is obliged to complete the practical training in the following dental disciplines: conservative dentistry, dental surgery, periodontium and prosthetics - 120hrs.

Absence during the training can be justified by a formal doctor's note only. In case the illness is longer than 1 week, the practical training should be prolonged accordingly.

A Head of the Clinic or a designated Supervisor (dentist) sets the duties and schedule of practice and supervises the work of the student.

Absence during the practical training should be compensated in offices which offer services in conservative dentistry, dental surgery and dental prosthetics.

Completed summer training should be confirmed by the Supervisor and signed by the Head of the Clinic or Department. Completion of the training awards 4 ECTS credits.

Practical training program:

- irregularities in stomatognathic system and prophylaxis
- perfecting dental radiology diagnostics, including radiologic, ultrasound and electronic testing
- rules of conduct in life-threatening situations in a dental office
- patients requiring special attention and preparation before the dental procedure
- improvement of practical knowledge in the field of basic dental procedures
- independent handling of procedures ordered by the training supervisor
- contemporary methods of the dental tools disinfection and sterilisation - revision
- materials, instruments and dental equipment – revision
