d.o.b (dd/mm/yyyy)

After 4th year Student of PMU is obligated to have practical training:

- 60 hrs at *Surgery Department*
- 60 hrs at *Department of Paediatrics*

Head of the Hospital Department or designated Supervisor settles a detailed plan of summer training (student's duties) and exercises ongoing supervision over the Student's work. Student's Supervisor should be a qualified professional physician. To the extent possible, Student should take part in each physician's activity.

Absence from work could be justified only by illness. Absence lasting 1-week or more means the prolongation of summer training term for the corresponding period of time.

Completed summer training is confirmed by Supervisor and signed by the Head of the Hospital Department. Student will get 4 ECTS points for completed summer clerkship.

Program of practice in Surgery Department:

- Introduction to the organization of a Surgery Department (Emergency Room, Operating Theatre, room for wound dressing, medical documentations management: rules of admission to a hospital/discharge from a hospital)
- Introducing surgical instruments and equipment of the surgery department
- Training in medical examination and diagnostic procedures especially in cases of emergency
- Principles of wound dressing, stitching up a wound, dealing with fractures and burns
- Principles of local anesthesia
- Participation in the clinic ward-rounds and on-call doctor's report
- Active participation in the work of the department, carrying out basic procedures, applying a dressing, removing stitches, putting the patient on the intravenous drip, taking samples for the analysis
- Principles of aseptic and antiseptic, hand washing techniques prior to surgery
- Participating/assistance to the surgery in the Operating Theatre
