## MEDICINE

PUM provides preclinical and clinical education for incoming students. You need to know that from 1st until 3rd years are preclinical – semester system of education – timetables organized on weekly bases. Next 4th until 6th years are based at clinical classes – block system – practical classes ; seminars/lectures start and provide to completion of the subject with final test or exam, then a new discipline(course/subject) starts. It is not recommended to mix these two systems of education.

## DENTISTRY

In general, classes on the 1st , 2nd and 3rd year of studies are held on the University Hospitals. Professional dental courses (from 3rd year) are held at the University Dental Clinic. Our curriculum reflected the upgrading of the knowledge and skills. Main professional dental subjects starts on the 3rd year and there is an continuation up till the 5th year, which means that the exams on these subjects are on the 5th year. Same subjects on the 3rd and 4th are finished with graded credit.
