

## Masterclass Webinar

Nov 23, 2023

Dear Students,

Discover the significance of Problem-Based Learning in medical education, its effectiveness using real cases, and support from McGraw Hill by attending Dr. Reem Zakaria's ***Cases in Focus: Refining Medical Education through Problem-Based Learning Insights.***

**Mark your calendar for Nov 23, 2023 at 3:00 PM CET**

Problem-Based Learning (PBL) has become an integral component of medical education curricula in the last few decades and changed the way medical students learn. This approach to learning takes advantage of clinical cases in a pedagogical manner that promotes students' responsibility towards their own learning and provokes their analytical thinking skills as well as maximizing the level of effective participation in groups.

Join Dr. Reem as she discusses:

- Why Problem-Based Learning (PBL) is important in modern medical education.
- How real cases help students learn better.
- The ways McGraw Hill can support with PBL.

**Can't attend but still want to view the webinar?**

Not a problem! Continue with registration and we will send you a link to watch the video recording after the webinar has aired!
