

## SYLLABUS OF THE MODULE(COURSE UNIT)

### General Information

Module code	POC	Module title	Basics of patient care
Module type			Obligatory
PMU Faculty			Faculty of Medicine (English Program)
Field of study			Medicine
Major			<i>Not applicable</i>
Level of study			long-cycle studies
Form of study			Full-time
Year of study			I
Semester of study			II
Number of ECTS credits			1
Course type			Classes in the Medical Simulation Center: 20 hours
Head of the module			Dr hab. n. zdr. Elżbieta Grochans, prof. PUM: <a href="mailto:zpropnp@sci.pam.szczecin.pl">zpropnp@sci.pam.szczecin.pl</a>
Course instructors			dr.n.zdr. Anna Cybulska/ <a href="mailto:anna.cybulska@pum.edu.pl">anna.cybulska@pum.edu.pl</a> dr n. zdr. Renata Robaszkiewicz-Bouakaz: <a href="mailto:zpropnp@pum.edu.pl">zpropnp@pum.edu.pl</a> dr n. zdr. Magdalena Bikowska/
Web site			<a href="http://www.pum.edu.pl/wydzialy/wydzial-nauk-o-zdrowiu/samodzielna-pracownia-propedeutyki-pielęgniarstwa">http://www.pum.edu.pl/wydzialy/wydzial-nauk-o-zdrowiu/samodzielna-pracownia-propedeutyki-pielęgniarstwa</a>
Language of instruction			Polish, English

## Detailed information

Module goals		Preparation for performing basic aseptic procedures.
Initial requirements in the scope of	Knowledge	Arising from the school-leaving (matura) exam
	Skills	
	Social competences	Systematic approach to learning, being responsible for undertaken tasks, teamwork skills

Description of learning outcomes for the module (course unit)								
Learning outcome number	On completion of the module (course unit), the student can/is able to:	SYMBOL (with reference to) EKK (Final Educational Effect)			Learning outcome verification method (form of obtaining course credit )			
POC_U01	Perform basic medical procedures including: - taking body temperature, taking the pulse, noninvasive blood pressure measurement, - intravenous, intramuscular and subdermal injections, peripheral venous cannulation, taking peripheral venous blood, taking arterialized capillary blood, - simple strip tests and measuring blood glucose level	E.U29			Continuous in class assessment, final test			
POC_U02	Keep medical records of a patient	E.U38			Continuous in class assessment			
POC_U03	Apply rules of asepsis and antisepsis	F.U3			Continuous in class assessment, final test			
PCD_U04	Perform peripheral cannulation	F.U5			Continuous in class assessment, final test			
POC_K01	Perform professional duties with diligence and accuracy.				Continuous in class assessment			
Matrix of learning outcomes for the module (course unit) referring to course type								
Learning outcome number	Module symbol or on completion of the module (course unit), the student can/is able to:	Course type						
		Lecture	Seminar	Lab classes	Clinical classes	Simulation classes – low risk	Classes	Practical training

POC_U01	Perform basic medical procedures including: - taking body temperature, taking the pulse, noninvasive blood pressure measurement, - intravenous, intramuscular and subdermal injections, peripheral venous cannulation, taking peripheral venous blood, taking arterialized capillary blood, - simple strip tests and measuring blood glucose level					X			
POC_U02	Keep medical records of a patient					X			
POC_U03	Apply rules of asepsis and antisepsis					X			
PCD_U04	Perform peripheral cannulation					X			
POC_K01	Perform professional duties with diligence and accuracy.					X			
Module (course unit) content									
Symbol of course content	Description of course content	Reference to learning outcome for the module							
TK01	Rules of asepsis and antisepsis. Taking body temperature, taking the pulse, noninvasive blood pressure measurement. Patient's record.	POC_U01, POC_U02, POC_U03, POC_K01							
TK02	Injecting and blood collection equipment types. Simple strip tests and measuring blood glucose level. Taking venous and capillary blood tests.	POC_U01, POC_U03, POC_K01							
TK03	Peripheral cannulation.	POC_U03, POC_U04, POC_K01							
TK04	Intravenous, intramuscular and subdermal injections – types, risks, places, principles and techniques.	POC_U01, POC_U03, POC_K01							
Literature and teaching aids									
1. Ciechaniewicz W, Grochans E, Łoś E: Wstrzyknięcia śródskórne, podskórne, domięśniowe i dożylnie. Warszawa: Wydawnictwo Lekarskie PZWL, 2007, 2014									
2. Ślusarska B., Zarzycka D., Majda A. (red.): Podstawy Pielęgniarstwa. Tom I i II. Warszawa: Wydawnictwo Lekarskie PZWL, 2017									
Student workload (ECTS credits balance)									
Student workload type (participation in classes, being active, preparing reports, etc)		Student workload [h]							
		N	S		Mean				
Contact hours with the instructor		20							
Preparing for classes		10							
Reading the recommended literature		-							
Lab report drafting/project preparation		-							

Preparing for getting the credit	10		
Others	-		
Total student workload	40		
ECTS credits for the module	1
