

Basic Medical Education

In order to obtain a license to practice/permit to practice/ as MD (medical doctor / *Lekarz*), you need to acquire **Basic Medical Education**. For that purpose, you have to complete 3 steps.

These rules concerns students of the English Program who will not be practicing in Poland.

Diploma	LEK exam	Intenship	
Given by The University	Given by Medical Examination Center	Given by Ministry of Health through the recognition of practical training	
after successful completion of the 12- semester MD Master's Degree Program.	LEK exam is to be taken by a student who completed 10 semesters or already graduated a six-year Uniform Master's Degree Program in Medicine (conducted by a university based in the Republic of Poland).	The University does not provide the internship/staż. The University provides practical training only.	
Requirements in accordance to the standards of education.	LEK exam is organized and conducted by The Medical Examinations Center (CEM) only twice a year(in February and in September)	There are two paths: A) 12-months program B) 6 months program both according to the specific program of education	
Diploma shall bear the Apostille.	The application form for LEK shall be filed via SMK – Polish national electronic system of registration for professional exam. A student is obliged to create the account in specified time frames with valid passport. [LINK]	A 12 months. To be done being a student.	B 6 months. To be done being an alumni.
